To Whom It May Concern,

Subject: Letter of Recommendation for Chinmay Dhananjay

I have the pleasure of being Chinmay's supervisor where he has tremendously helped advance our security program. He is a hard-working and highly proficient technician. He works hard to ensure that issues are resolved quickly, and projects finish on-time.

He first came to my attention as we were engaged in fending off a phishing attack and he sent a very well documented and screenshot filled report which helped my team block the emails and URLs in the attack. After that we hired him and he's exceeded all expectations. He routinely finds ways to automate tasks that previously took hours to complete, saving time and allowing our efforts to be focused on the real threats.

In addition to his technical acumen, he possesses a friendly and engaging personality and the ability to work and communicate well with anyone. He always provided excellent service to our clients and management and has created communication templates used by my entire security team.

I will surely be sad to lose him, but I know he will be a valuable member of the team where he ends up.

Sincerely,

Jeremy M. Livingston
